Protect yourself from "Phishing"

Phishing is a criminal activity using social engineering techniques. "Phishers" attempt to fraudulently acquire sensitive information, such as passwords, personal information, military operations, and credit card/financial details, by masquerading as a trustworthy person or business in an electronic communication.

Please see the attached flyer for more information and an example of phishing.

Google Telephone Directory is new and completely FREE!

I just tried this and IT DOES WORK!

Here's an example of how it works.....

You dial (1-800-GOOG-411) 1-800-466-4411. The voice at the other end says, "City & State."

You say, " Cincinnati, Ohio"

He says, "Business, Name or Type of Service."

I say, "Cincinnati Municipal Golf Course"

He says, "Connecting" and The Rep from the Golf Course answers the phone.

This is nationwide and it is absolutely free!

Click on the link below and watch the short video clip for a quick demonstration.
